Why do we need this information?

EPA needs background information on your facility to evaluate your application.

What do you need to do?

- Provide background information on your facility.
- Identify your environmental requirements.

Section A

Tell us about your facility.

1 What do you do or make at your facility?

The Mott's Williamson Plant manufactures apple sauce, apple juice and other non-carbonated drinks, drink mixers and cooking wines, including Holland House and Mr. & Mrs. T drinkmixers, Holland House Cooking Wines, Roses Lime & Grenadine, Hawaiian Punch, and Mott's Clamato, as well as other Mott's Apple & fruit blended juices.

2 List the Standard Industrial Classification (SIC) code(s) or North American Industrial Classification System (NAICS) codes that you use to classify business at your facility.

SIC
2033

NAICS

3 Does your company meet the Small Business Administration definition of a small business for your sector?

☐ Yes

☒ No

4 How many employees (full-time equivalents) currently work at your facility?

☐ Fewer than 50

☐ 50-99

☒ 100-499

☐ 500-1,000

☐ More than 1,000

Section A, continued

5 Does your facility have an EPA ID number(s)?

☒ Yes

☐ No

If yes, list in the right-hand column.

8-5446-00002/02000	Boiler Air Registration
NYD002204857	Hazardous Waste Generator's ID
NYD0000523	SPDES Permit
NYR00D037	Storm Water Permit
8A-601	Waste Transporter Permit
8-018260	Petroleum Bulk Storage Reg. Cert
8-000214	Haz. Sub. Bulk Storage Reg. Cert
2943-4177	Radioactive Materials License

6 Identify the environmental requirements that apply to your facility. Use the Environmental Requirements Checklist, at the back of the instructions, as a reference. List your requirements to the right or enclose a completed Checklist with your application.

See enclosed checklist

7 Check the appropriate box in the right-hand column.

☐ I've listed the requirements above.

☒ I've enclosed the Checklist with my application.

8 Optional: Is there anything else you would like to tell us about your facility?

The Environmental Management System (EMS) at the Mott's Williamson Plant was certified to the ISO 14001 Standard in November 2000.

Why do we need this information?

Facilities need to have an operating Environmental Management System (EMS) that meets certain requirements.

What do you need to do?

- Confirm that your EMS meets the Achievement Track requirements.
- Tell us if you have completed a self-assessment or have had a third-party assessment of your EMS.

Section B

Tell us about your EMS.

1 Check yes if your EMS meets the requirements for each element below as defined in the instructions.

a. Environmental policy ☒ Yes

b. Planning ☒ Yes

c. Implementation and operation ☒ Yes

d. Checking and corrective action ☒ Yes

e. Management review ☒ Yes

2 Have you completed at least one EMS cycle (plan-do-check-act)? ☒ Yes

3 Did this cycle include both an EMS and a compliance audit? ☒ Yes

4 Have you completed an objective self-assessment or third-party assessment of your EMS? ☒ Yes

If yes, what method of EMS assessment did you use?

☐ Self-assessment

☐ GEMI

☐ Other

☐ CEMP

☒ Third-party assessment

☒ ISO 14001 Certification

☐ Other

Section C

Tell us about your past achievements and future commitments.

Why do we need this information?

Facilities need to know that there are companies out there that are doing it right. We want to know how you are doing it right. We want to know how you are doing it right. We want to know how you are doing it right.

What do you need to do?

Refer to the Environmental Performance Table in the instructions to answer questions 1 and 2.

- 1 Describe your past achievements for at least two environmental aspects. If you need more space than is provided, attach copies of this page.

Note to small facilities: If you qualify as a small facility as defined in the instructions, you need to report past achievement for at least one environmental aspect.

First aspect you've selected

What aspect have you selected?	What was the previous level (2 years ago)?		What is the current level?	
	Quantity	Units	Quantity	Units
Hazardous Waste	1,935	lbs/yr in 1998	275	lbs/yr in 2000
<p>i. How is the current level an improvement over the previous level?</p> <p>The amount of product produced was increased 10% from 221,099 cubic meters to 243,119 cubic meters. The amount of hazardous waste generated during that same time was reduced by 85.6%. We are currently tracking as a Conditionally Exempt Small Quantity Generator.</p>				
<p>ii. How did you achieve this improvement?</p> <p>This was achieved by:</p> <p>Replacing hazardous materials with non-hazardous materials where possible.</p> <p>Keeping hazardous waste segregated from non-hazardous waste.</p> <p>Purchasing only the amount of material needed, not buying more than we need just to get a better price.</p>				

Second aspect you've selected

What aspect have you selected?	What was the previous level (2 years ago)?		What is the current level?	
	Quantity	Units	Quantity	Units
Solid Waste	61,952	Metric Tons/yr in 1998	55,619	Metric Tons/yr in 2000
<p>i. How is the current level an improvement over the previous level?</p> <p>The amount of product produced was increased 10% from 221,099 cubic meters to 243,119 cubic meters. The amount of solid waste generated during that same time was reduced by 10.2%.</p>				
<p>ii. How did you achieve this improvement?</p> <p>This was achieved by:</p> <p>Purchasing only the amount of material that we need or can use.</p> <p>Tracking raw material yields to identify improvement opportunities, and acting on them.</p> <p>Improving the production processes to reduce the amount of off-spec product produced.</p>				

2. Select at least four environmental aspects (no more than two from any one category) from the Environmental Performance Table in the instructions and then tell us about your future commitments. If you need more space than is provided, attach copies of this page.

Note to small facilities: If you are a small facility, you need to make commitments for at least two environmental aspects in two different categories.

First aspect you've selected

a. What is the aspect?

b. Is this aspect identified as significant in your EMS?

c. What is the current level? You may choose to state this as an absolute value or in terms of units of production or output.

Total Energy Use

☒ Yes ☐ No

☐ Option A:
Absolute value

130,529,179 kWh/yr in 2000

(Quantity/Units)

☒ Option B:
In terms of units of production or output

0.537 kWh/liter Finished Product Produced (Quantity/Units)

d. What is the level you are committing to achieve over the next three years? You may choose to state this as an absolute level or in terms of units of production or output.

☐ Option A:
Absolute value

Based on the year 2000
and assuming no change
in production, 2% =
2,610,600 kWh
(Quantity/Units)

☒ Option B:
In terms of
units of production
or output

2% Reduction in Energy
Used/liter of Finished
Product Produced
(Quantity/Units)

e. How will you achieve this improvement?

This improvement will be achieved through the use of the Utilities Management Team who will track energy usage across the plant to identify areas of opportunity (e.g. high use areas with inefficient equipment or employees with wasteful practices) and implement improvement plans.

Second aspect you've selected

a. What is the aspect?

Total Water Use

b. Is this aspect identified as significant in your EMS?

☒ Yes ☐ No

c. What is the current level? You may choose to state this as an absolute value or in terms of units of production or output.

☐ Option A:
Absolute value

262,310,000 gal/yr in 2000
(Quantity/Units)

☒ Option B:
In terms of
units of production
or output

4.08 gallons Water
Used/ gallon Finished
Product Produced
(Quantity/Units)

d. What is the level you are committing to achieve over the next three years? You may choose to state this as an absolute level or in terms of units of production or output.

☐ Option A:
Absolute value

Based on the year 2000
and assuming no change
in production,
5% = 13,115,324 gal.
(Quantity/Units)

☒ Option B:
In terms of
units of production
or output

5% Reduction in Water
Used/Finished Product
(Quantity/Units)

e. How will you achieve this improvement?

This improvement will be achieved through the use of the Utilities Management Team who will also track water usage across the plant to identify areas of opportunity and implement improvement plans (e.g. replace high volume low pressure cleaning processes with high pressure low volume, and correcting employee wasteful practices).

For Now: 64,232,040 gallons
of finished product produced
in year 2000
(conversion from lbs)

Third aspect you've selected

a. What is the aspect?

b. Is this aspect identified as significant in your EMS?

c. What is the current level? You may choose to state this as an absolute value or in terms of units of production or output.

d. What is the level you are committing to achieve over the next three years? You may choose to state this as an absolute level or in terms of units of production or output.

e. How will you achieve this improvement?

Total Solid Waste

☒ Yes ☐ No

☐ Option A:
Absolute value

55,618 metric tons/yr in
2000
(Quantity/Units)

☒ Option B:
In terms of
units of production
or output

0.229 metric tons/cubic
meter Finished Product
(Quantity/Units)

☐ Option A:
Absolute value

Based on the year 2000
and assuming there is no
change in production,
5% = 2,781 metric tons
(Quantity/Units)

☒ Option B:
In terms of
units of production
or output

5% Reduction in Solid
Waste/Finished Product
(Quantity/Units)

This will be achieved by continuing with our current solid waste reduction efforts including:

-Purchasing only the amount of material that we need or can use.

-Tracking raw material yields to identify improvement opportunities, and acting on them.

Improving the production processes to reduce the amount of off-spec product produced.

We also make every effort to find secondary beneficial uses for all our waste. Our landfill diversion rate is currently 97.4%. This means that less than 3% of our waste actually goes to a landfill.

Fourth aspect you've selected

a. What is the aspect?

b. Is this aspect identified as significant in your EMS?

c. What is the current level? You may choose to state this as an absolute value or in terms of units of production or output.

Wastewater Discharged

☒ Yes ☐ No

☐ Option A:
Absolute value

220,600,000 gal/yr in 2000
(Quantity/Units)

☒ Option B:
In terms of
units of production
or output

3.434 gallons
Discharged/
gallons
Finished Product
(Quantity/Units)

d. What is the level you are committing to achieve over the next three years? You may choose to state this as an absolute level or in terms of units of production or output.

- ☐ Option A:
Absolute value
- ☒ Option B:
In terms of
units of production
or output

Based on the year 2000
and assuming there is no
change in production,
5% = 11,029,822 gal.
(Quantity/Units)

5% Reduction in Amount
Discharged/Amount of
Finished Product
(Quantity/Units)

e. How will you achieve this improvement?

This improvement will be achieved through:

Utility Management Team reducing the total water usage.

Tracking yields and minimizing waste.

WWTP process improvements.

Segregation of storm water and cooling water from the
WWTP influent.

NOTE: 64,232,040 gallons
of finished product
produced in yr. 2000

Section D

Tell us about your public outreach and reporting

Why do we need this information?

Facilities need to demonstrate their commitment to public outreach and performance reporting. This includes the appropriate methods to be used to report on environmental concerns to the public. This information is used to evaluate your environmental performance.

What do you need to do?

- Describe your outreach and reporting program.
- List three references who are familiar with your facility.

- 1 How do you identify and respond to community concerns?

Our EMS has a procedure for external communication. Concerns are directed to the site Environmental and Safety Manager, and they are addressed on an individual basis. These concerns are documented and kept on file within our EMS. The Environmental and Safety Manager reports directly to the Plant Manager and is authorized to take appropriate actions on environmental matters.

- 2 How do you inform community members of important matters that affect them?

Community member are informed through the Williamson Chamber of Commerce, Williamson Rotary Club and the Grower's News Letter published and distributed by the Mott's Williamson Plant to all the local apple growers.

- 3 How will you make the Achievement Track Annual Performance Report available to the public?

- ☐ Website www.
- ☒ Newspaper
- ☐ Open Houses
- ☒ Other

We plan to send it to the local newspaper - Williamson Sodus Record/Sun, the Williamson Chamber of Commerce and the Williamson Rotary Club. Mott's is the single largest employer in the town of Williamson. We will also make it available to the public upon request.

- 4 Are there any ongoing citizen suits against your facility? ☐ Yes ☒ No

If yes, describe briefly in the right-hand column.

5 List references below

Application and Participation Statement

On behalf of Mott's Williamson Plant
[my facility],

I certify that

- I have read and agree to the terms and conditions, as specified in the *National Environmental Achievement Track Program Description* and in the *Application Instructions*;
- I have personally examined and am familiar with the information contained in this Application (including, if attached, the Environmental Requirements Checklist). The information contained in this Application is, to the best of my knowledge and based on reasonable inquiry, true, accurate, and complete, and I have no reason to believe the facility would not meet all program requirements;
- My facility has an environmental management system (EMS), as defined in the Achievement Track EMS requirements, including systems to maintain compliance with all applicable federal, state, tribal, and local environmental requirements, in place at the facility, and the EMS will be maintained for the duration of the facility's participation in the program;
- My facility has conducted an objective assessment of its compliance with all federal, state, tribal, and local environmental requirements, and the facility has corrected all identified instances of potential or actual noncompliance;
- Based on the foregoing compliance assessment and subsequent corrective actions (if any were necessary), my facility is, to the best of my knowledge and based on reasonable inquiry, currently in compliance with applicable federal, state, tribal, and local environmental requirements.

I agree that EPA's decision whether to accept participants into or remove them from the National Environmental Achievement Track is wholly discretionary, and I waive any right that may exist under any law to challenge EPA's acceptance or removal decision.

I am the senior facility manager and fully authorized to execute this statement on behalf of the corporation or other legal entity whose facility is applying to this program.

STATE OF NEW YORK

GEORGE E. PATAKI
GOVERNOR

February 5, 2001

Dear Friends:

It is a pleasure to offer congratulations to Mott's Inc.'s Williamson Plant upon becoming the first food processing plant in New York State to achieve the world's most rigorous environmental management standard.

The Empire State is proud to be home to a wide variety of businesses and organizations that strive to reach the high environmental management requirements such as those set forth by the ISO 14001 Standard. In that regard, the conferral of this distinctive status upon Mott's Williamson Plant by SGS International, a worldwide certification service, is truly a testament to the company's dedication to product integrity. Built in 1954, it becomes one of only 870 companies registered to this standard in the United States, which is certainly an enormous honor for the Williamson plant and the entire Mott's Inc. organization. The ISO 14001 certification demonstrates Mott's continued commitment and leadership efforts in pollution prevention and conservation of our natural resources.

Best wishes to you on this occasion and I wish you continued success in the future.

Very truly yours,

Mr. Terry Redden, Plant Manager
Mott's USA - Williamson Plant
Williamson, NY 14589

Dear Terry;

I want to congratulate the Mott's USA Williamson Plant on your recent achievement of obtaining the elite ISO 14001 certification.

I am sorry that I am not able to be with you tonight to personally deliver my best regards to you, your employees, and guests, but the State Legislature is in session and I am forced to be in Albany.

Over the past several years, I have been able to make various visits and take several tours of the plant. I have seen first-hand the efforts, by management and staff, to attain excellence. Your success in pollution prevention and conservation of resources is applauded by me, the local community and our state.

As New York State's first food processing plant to receive the ISO 14001 certification, I want to once again congratulate you and wish you all the best for continued success.

Sincerely,

ROBERT C. OAKS
